Unnat Bharat Abhiyan
Malnad College of Engineering, Hassan – 573 202

Unnat Bharat Abhiyan (UBA) cell of Malnad College of Engineering, Hassan - 573 202., has been organizing a series of online events entitled “*Virtual School*” for village school students during this lockdown period May-June 2021. It is well known that all sorts of school activities have been frozen since more than a year, particularly, for below high school students including in many villages of our country. Moreover, the students who were enrolled in private institutions for online schooling have also been discontinued. Because of the same, village students may lose their practice and spirit of learning.

This is not only because of the closed schools; it is also due to the stressed situation created around all of them due to the Covid-19 health crisis where life saving itself has become a major task by keeping our head down. This may affect in the advancement of our society by this generation with a greater percentage in future.

Malnad College of Engineering, Hassan., being a reputed educational institution in the country with potential future engineers, is planning to do something in this health crisis at least for villages which have been adopted by our college under **MCE - Unnat Bharat Abhiyan**. Therefore, UBA students would be made and trained as mentors for the village students. During the above events, these student mentors would teach school level Science & Engineering, Languages, Social science and computer related aspects to the village kids. Those who participate in such activities during this event as student mentors will be appreciated by UBA cell, MCE, Hassan., with e-certificates. This will get them AICTE activity points as well.

The best three creative mentors will be awarded with prizes.

About the Program

Virtual School

**Unnat Bharat Abhiyan
Malnad College of Engineering**

Inauguration of the Virtual School events under MCE Unnat Bharat Abhiyan for all the adopted Villages was held on Thursday, 03/06/2021. The function was graced by honorable Deputy Commissioner & District Magistrate, Hassan District **Sri R Girish, IAS**, and honorable Superintendent of Police, Hassan District **Sri Srinivas Gowda R, IPS**. The Event was presided by **Sri Ashok Haranahalli**, Honorable Chairman, MTES @, Hassan., and **Dr. C V Venkatesh**, Principal, MCE, Hassan.

UBA students' volunteers, ME-RIISE team and college faculty members were present. Students and teachers of government school played the main role of audience in the inaugural function. Honorable DC **Sri R Girish, IAS**, and SP honorable **Sri Srinivas Gowda R, IPS** guided the UBA team and promised to provide all the support required to make the event successful. Honorable chairman of MTES ® **Sri Ashok Haranahalli** congratulated the UBA team for its success and promised for any sort of help & support required further in this movement towards development of all the adopted villages by the college.

Heragu School

With the support and blessings of the above eminent personalities, Unnat Bharat Abhiyan Cell, Malnad College of Engineering, Hassan UBA team headed by **Dr. Geetha Kiran A** and **Dr. Raju S P**, as Co-ordinators, started its first event in the second week (during 6 – 12) of June 2021. The students were happy to attend the online live events through Google Meet platform. Three slabs were made among village students to ease the effective delivery of the concepts. First slab - 1st to 3rd standard, second slab – 4th to 6th standard, and third slab – 7th to 9th standard. All the three slabs' students and their events were treated totally different by considering their hierarchy of ability in understanding levels among students.

The parallel live event sessions were held during the first week. However, we faced number of issues in this week. Since kids from different slabs from the same house were given single smartphones. Therefore, the other kids from different slabs in the house were missing the events if the smartphone is being engaged by the kids from a particular slab. Therefore, this issue was evaluated and resolved by conducting two series and two parallel events to make every school student to attend the live sessions.

A YouTube channel entitled ***MCE Unnat Bharat Abhiyan*** was created by the UBA cell to share all the events videos. To make effective delivery of the contents chosen for the VIRTUAL SCHOOL, the event was designed in three phases.

In the first phase prerecorded videos were upload in the ***MCE Unnat Bharat Abhiyan*** YouTube channel and their links were shared among the WhatsApp group created for the village students.

The second phase was live interaction. At the time of live events, the same topic was chosen for interaction to make the village students correlate, discuss, and realize the concepts.

The third one was follow-up phase. In this phase all the students were personally contacted by the UBA student mentors and to make sure the contents have reached them effectively.

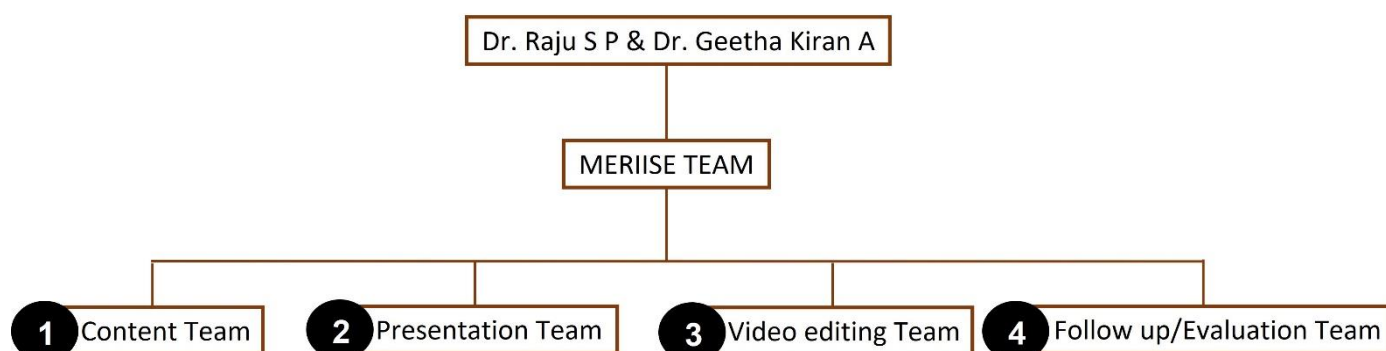

All the events were conducted smoothly and effectively. Even private convent kids also joined the events from different places of Hassan. The statement comprising the details of events conducted through VIRTUAL SCHOOL is given as follows:

Events held till last week (till 04/07/2021)				
<u>Week</u>	<u>Date</u>	<u>Class</u>		
		1-3	4-6	7-9
Orientation	03/06/2021			
1	12/06/2021	Hygiene		Vedic Maths
	13/06/2021	Shapes and number		Vedic Maths 2

2	19/06/2021	living and non-living things	Pollution	Reflection and Refraction 1
